

S3 Home Learning

We're excited to embark on a fun and educational homework task together! For this task, we'll dive into the world of literature by researching an author whose work we are studying in school. You can choose any exciting way to present your findings – whether it's through a presentation, a talk, a report, or even a creative project!

Here's what you need to do:

Step 1: Choose Your Favourite Author Pick an author whose books or stories we have been reading and enjoying in class. Make sure it's someone you find interesting and want to learn more about.

Step 2: Gather Information with the help of your parents, head to the library or use the internet to find information about your chosen author. Look for details like where they were born, their life story, and the inspiration behind their work.

Step 3: Create Your Project Now comes the fun part! Decide how you want to share your findings. You can choose one of the following options (or feel free to come up with a way of your own!):

- **Presentation:** Create colourful slides or visual aids to present your information. You can talk about the author's life, their famous works, and why you enjoy their stories.
- **Talk:** Prepare a short speech to share with your classmates. You can use note cards to help you remember the important points you want to talk about.
- **Report:** Write a short report or essay about the author. Include facts, anecdotes, and your personal thoughts about their work.
- **Creative Project:** Get artistic! Make a poster, draw a comic strip, write a poem, or even act out a scene from one of the author's books. Use your imagination to showcase what you've learned.

Step 4: Parent Involvement Parents, this is a wonderful opportunity for you to join in the learning fun! You can help your child find information, guide them through their project, and provide any necessary materials. You can also offer suggestions and encouragement as they work on their assignment.

Step 5: Share and celebrate once you've completed your project, it's time to share your newfound knowledge! You can present your project to the class, share it with your family at home, or even invite friends to see what you've created. Let's celebrate the joy of learning and creativity together!

Remember, this homework task is all about having fun while learning more about the authors whose stories have captured our imaginations. If you have any questions or need help along the way, don't hesitate to reach out to your teacher.

Happy researching and creating!
