S1 Parents' Evening: Summary of comments

Parent feedback was largely positive, with most parents valuing the convenience, accessibility and efficiency of the online format. The booking system was well received, and most parents were able to meet with all scheduled teachers.

Some comments raised the following concerns:

- Technical issues, particularly audio and connectivity problems.
- The length of appointments, with some parents feeling that five minutes was too short for more detailed discussions.

Overall, around two-thirds of respondents would like online parents' evenings to continue, with many highlighting the flexibility and ease of access they provide.
